CompTIA Security+ (SY0-701) — Nov 2023

CompTIA

Course CompTIA Security+ (SY0-701) — Nov 2023

3a Kypca (About this Course):

- The new CompTIA Security+ (SY0-701) represents the latest and greatest in cybersecurity, covering the most in-demand skills related to current threats, automation, zero trust, IoT, risk — and more. Once certified, you'll understand the core skills needed to succeed on the job — and employers will notice too. The Security+ exam verifies you have the knowledge and skills required to:

  - Assess the security posture of an enterprise

environment and recommend and implement appropriate security solutions.

- Monitor and secure hybrid environments, including cloud, mobile, Internet of Things (IoT), and operational technology.
- Operate with an awareness of applicable regulations and policies, including principles of governance, risk, and compliance.
- Identify, analyze, and respond to security events and incidents.

CompTIA Security+ is compliant with ISO 17024 standards and approved by the U.S. DoD to meet directive 8140/8570.01-M requirements. Regulators and government rely on ANSI accreditation because it provides confidence and trust in the outputs of an accredited program. Over 2.3 million CompTIA ISO/ANSI-accredited exams have been delivered since January 1, 2011.

- Identify strategies developed by cyber adversaries to attack networks and hosts and the countermeasures deployed to defend them.
- Understand the principles of organizational security and the elements of effective security policies.
- Know the technologies and uses of cryptographic standards and products.
- Install and configure network- and host-based security technologies.
- Describe how wireless and remote access security is enforced.
- Describe the standards and products used to enforce security on web and communications technologies.
- Identify strategies for ensuring business continuity, fault tolerance, and disaster

recovery.
- Summarize application and coding vulnerabilities and identify development and deployment methods designed to mitigate them.

Цели – Какво ще научите (Course Goals/Skills):

- Identify the fundamental concepts of computer security
- Identify security threats and vulnerabilities
- Manage data, application, and host security
- Implement network security
- Identify and implement access control and account management security measures
- Manage certificates
- Identify and implement compliance and operational security measures
- Manage risk
- Troubleshoot and manage security incidents
- Plan for business continuity and disaster recovery

Курсът е предназначен за (Audience):

- Network Administrators, Security Engineers, Support Analysts, Security Administrator, Security Consultant, IT Managers

Формат на курса

Присъствен Курс

Онлайн (Live) Отдалечен

Език на курса (Course Language Option)

Български (Bulgarian)

Английски (English)

Може да изберете Език на който да се проведе обучението – български или английски. Всичките ни инструктори владеят свободно английски език.

Учебни Метериали: в електронен формат (Учебните материали са на английски), включени в цената с неограничен достъп.

Лабораторна среда: всеки курсист разполага със собствена лаб среда, където се провеждат упражненията, част от курса.

Сертификат за Завършен Курс

Продължителност (Course Duration):

- 5 работни дни (09:00 — 17:00)

или

- **40 уч.ч. обучение (теория и практика) в извънработно време с продължителност 4 седмици**
- събота и неделя 10:00 — 14:00, 14:00 — 18:00, 18:00 — 22:00
- понеделник и сряда 19:00 — 23:00
- вторник и четвъртък 19:00 — 23:00

Плащане

Заявка за издаване на фактура се приема към момента на записването на съответния курс.

Фактура се издава в рамките на 7 дни от потвърждаване на плащането.

Предстоящи Курсове (Next Class):

[tribe_events_list category="comptia"]

Не виждате предстоящи събития или искате да ви предложим допълнителни възможности за провеждане?

Пишете ни в чат или използвайте формата за контакт.

Ще се свържем с Вас за потвърждаване на датите.

Предпоставки (Изисквания) за Участие (Prerequisites):

- Networking and administrative skills in Windows-based TCP/IP networks and familiarity with other operating systems, such as OS X, Unix, or Linux.

Курсът подготвя за следните сертификационни нива

- **CompTIA Security+ SY0-701 (2023)**
